

QUALITY SYSTEM	LANDMARK MANUFACTURING	Process: 5.1; 5.3; 5.4.
ISO 9001	QUALITY POLICY	EFF. 05/07/02 REV. 06/24/08

It is the policy of Landmark Manufacturing to plan, implement, maintain, monitor, revise and control our quality system, which complies with the ISO 9001 Standard.

It is our policy to monitor and improve our business systems to ensure that our contractual obligations are met and that we continue to enhance our relationships with our customers and suppliers, in defining and meeting their requirements.

It is our policy to implement, utilize and continually monitor our Quality Management System (QMS). This is done based upon the ISO 9001 Standard, utilizing the concepts of Process Management; Organizational Performance Measurement; and Continual Improvement.

These concepts represent essential methods and practices, which are incorporated into the operation of our business.

Landmark Manufacturing is committed to the communication and practice of the concepts of this Quality Policy. The Quality Policy is reviewed periodically at Management Review Meetings to verify its continual relevance to the operation of our business.
