

LANDMARK MANUFACTURING CONFLICT MINERALS POLICY

Effective Date: 03/19/2014

Revision Date: 03/19/2014

Landmark is committed to sourcing components and materials from suppliers that share the values to the respect of human rights. Landmark Mfg. Corp. supports this legislation and its position to avoid the use of conflict minerals mined from the DRC and adjoining countries.

“Conflict Minerals” refers to minerals or other derivatives mined in the eastern provinces of the Democratic Republic of the Congo (DRC) and in the adjoining countries. The minerals that they use include; gold, tungsten, tantalum, and tin. In July 2010, the United States passed HR4173, the Dodd-Frank Financial Reform Bill section 1502(b) requiring all US public companies and their suppliers to disclose the chain of custody usage of conflict minerals.

Landmark requests that ALL suppliers are “conflict-free”, in support of the human rights principle of the Conflict Minerals Act.
